"Will You Please Give Us A Book?"

This is the request that has been made and is still being made by the Library Committee of the Parent-Teacher Association of all former pupils and teachers of the Oregon high school, as well as all friends and patrons of the old school, of which we are all so proud.

It may be interesting to our readers to know of the hearty response that has come from all parts of the country.

As there were no funds on hand with which to purchase the books, the committee originated this plan of asking our friends for books. It is gratifying, indeed, to know that our school has so many friends and well-wishers. Books have been sent in from more than a dozen states, besides our own.

We ask for one book, but we gladly accept as many as the donor chooses to give. Some donors have been generous enough to send as many as from twenty to thirty volumes. Others donated money to buy books.

The different members of the committee have very much enjoyed letters from the people to whom they have written. These letters have all with one accord commended this movement in the old town to improve the school library.

Up to date about 375 volumes have been received. We are hoping to bring the number up to at least 500, so, please give us a book.

The following is a partial list of donors to date:

Leigh H. Irvine, San Luis Obispo, California.

Clare B. Irvine, Santa Monica, California.

Mr. and Mrs. Chas. Edwards, Lebanon, Missouri.

Character in Reading.

The Youth's Companion does more than entertain; it affords the reader a mental and moral tonic. Its stories are not best told, contributed by the best writers of stories, but they maintain the standards, reflect the ideals of the best homes. They do not throw a false glamour over the tawdry things of life. Rather do they depict the courageous, the healthful, the simple—the true life of the greater number with their adventures, their conflicts of temperament, their failures and successes. In 1917 The Companion will print 12 serials and story groups besides fully 250 single stories and sketches, all for \$2.00. The Forecast for 1917, which we will send on request, tells all about the great features of the coming volume.

By special arrangements new subscribers for The Youth's Companion can have also McCall's Magazine for 1917—both publications for \$2.10.

Our two-at-one-price offer includes:

1. The Youth's Companion—52 issues of 1917.

2. All the remaining issues of 1916.

3. The Companion Home Calendar for 1917.

4. McCall's Magazine—12 fashion numbers of 1917.

5. One 15-cent McCall Dress Pattern—your choice from your first number of the magazine—if you send 2-cent stamp with your selection.

The Ideal Way to California

is the personally conducted way to California, not only is it the most economical but the most comfortable and care-free way as well.

There's no worry about baggage or other travel details, for our special conductor goes all the way through, looking out for your comfort and explaining all about the points of interest as you pass along. Another advantage is that the schedules are so fixed that one passes all the best scenery in daylight.

The cheerful company of congenial people who go on these low fare parties adds greatly to the pleasure of the trip.

If you're planning to see California this winter, stop in the first time you are going by and get your copy of our folder telling about our personally conducted parties to California. I'll be glad to give you further information about rates, etc.

See Those Four Loaves

Zephyr did make that many more than I've ever baked from a single sack of any other flour.

I counted every baking to see.

The grocer was right. Zephyr is worth more than his other kinds. For those four loaves makes Zephyr the most economical flour we can buy. It gives us 40c more bread per sack.

It is easy to get several more loaves from each sack of

ZEPHYR FLOUR

because its high gluten content gives it great absorptive qualities—makes it greedy for sponge. You use less flour, more water and stronger yeast.

Isn't it worth while trying just one sack of Zephyr to prove this for yourself?
